About us

As a spin-off (2016) of LEXIS SA (www.lexis.gr) and with more than 35 years of experience in Networking and Uninterruptible Power Supply systems, CONSECT is dedicated to provide state-of-the-art solutions, offering through its network of partners, integrated solutions and consulting services in the design, implementation and maintenance of network infrastructures.

Activities

CONSECT offers a wide range of solutions focused on modern networking, network security, advanced surveillance systems (with an emphasis to Video Analytics using AI) and UPS systems, which supplies, installs and supports on a 24-hour basis.

Through strategic partnerships with leading foreign manufacturers, CONSECT supplies daily the largest IT companies in Greece and Cyprus.
