

The logo for 'wings.' features the word 'wings' in a lowercase, sans-serif font. The letters 'wi' are orange, and the letters 'ngs' are white. A small orange dot is positioned above the 'i', and a larger orange dot is positioned at the end of the word, acting as a period. The background is a dark blue gradient with a subtle pattern of thin, curved lines radiating from the right side.

wings.

TECHNOLOGY TO ELEVATE YOUR BUSINESS

# Vision

Innovation to enhance the quality of life globally, and build a safer, healthier and resilient world.

# Mission

We leverage technology to produce solutions  
for a sustainable future

# At-a-Glance

Established in Greece since 2012

## HUMAN CAPITAL

150+ Hi-Tech  
engineers

## RESEARCH

EU Leader in research  
Co-funded Projects

## GROWTH

CAGR (2019-23)=13%  
YOY (2022-23) =28%

## QUALITY STANDARDS

ISO, ESG, best practices for  
cooperation with multi-nationals

**International  
Presence**

**10+  
COUNTRIES**

**wings.**

# Core Values

**R&D  
Excellence**

**Ownership**

**Care**

**Innovation**

# Subsidizing Values

## R&D Excellence

Top class engineers  
Creation of prototype  
technology  
State of the art toolkit  
EU R&D Projects pioneers

## Ownership

Custom technology  
production  
Owned design solution  
Complex project experience

## Care

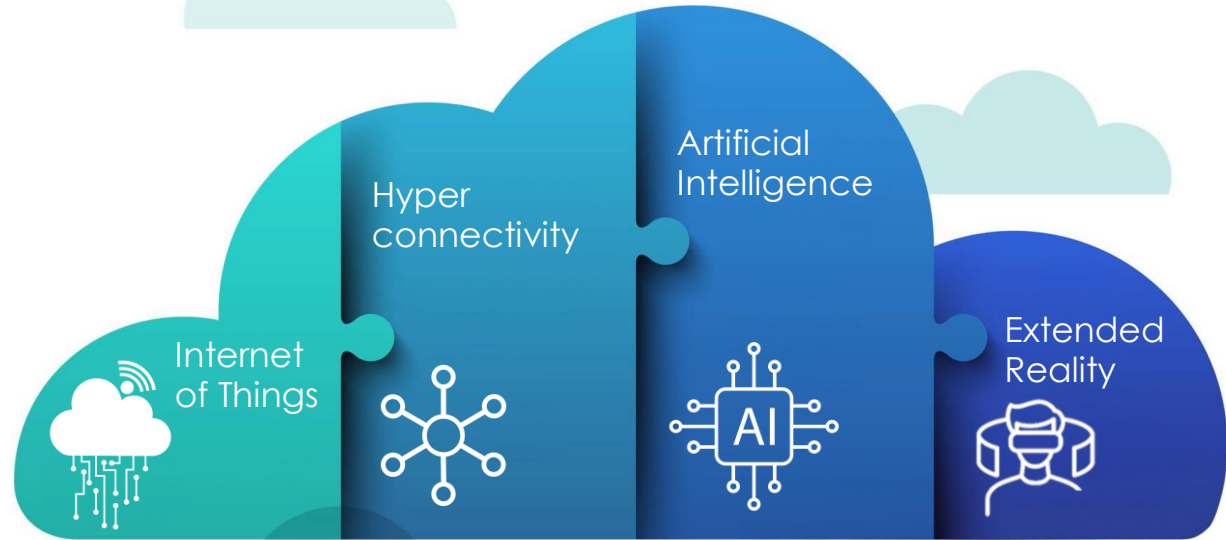

Agility  
Round the clock support  
Deep product knowledge

## Innovation

Crafting purpose driven  
Solutions  
Empowering the Industry

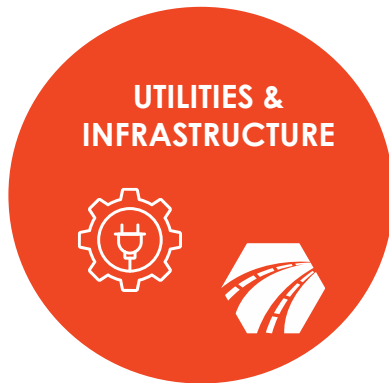

# Technological Tools

High-Tech Areas

**wings.**

# Market Segments

# Market Segments

## ENVIRONMENT ●

Air Quality

Wildfire detection & prevention

Remote management

## SERVICES ●

### HEALTH

Digital Health & Wellness

Real time vital signs

Remote monitoring

### CULTURE

Digital culture

Digital school

## UTILITIES & INFRASTRUCTURE ●

**Water.** Quality, use, revenues, shortage mitigation

**Energy.** Renewables, Storage, Optimization

### Transportation.

Structure health;

Management of traffic,

Stations (passengers), Vehicles

## AGRICULTURE & MANUFACTURING ●

**Agriculture.** Digital farmer, irrigation optimization

**Aquaculture.** AI Average Weight Estimation, feeding optimization, behavior pattern

**Manufacturing.** Smart Warehouse Automation, AI fleet management, robot-based digital helper

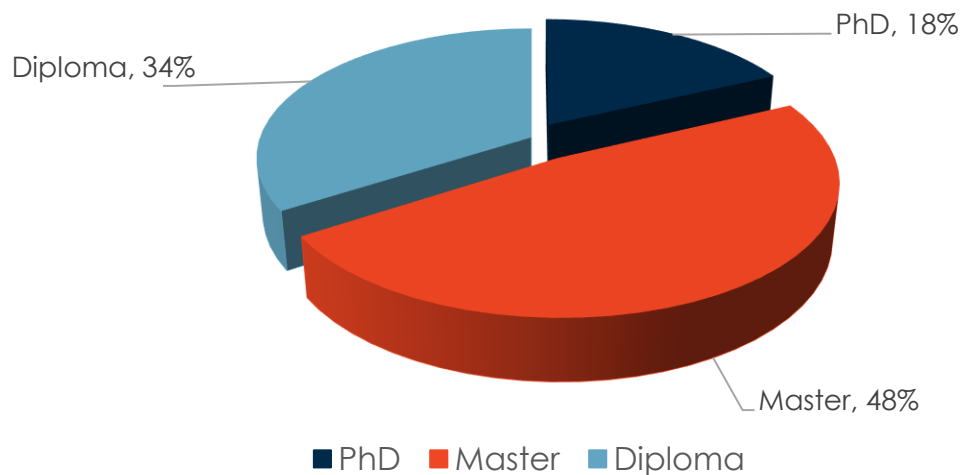

# Product Portfolio
